

Screens

Screen Name: Home Screen | Dashboard

Short Description: The primary dashboard displaying prayer request

User Stories:

- As a user, I want to be able to see the **Inbox**
- As a user, I want to be able to see my **Active Deck**
- As a user, I want to be able to see how many prayers are in my active deck
- As a user, I want to be able to see how many prayers I prayed for today

Screen Name: Add Prayer request screen

Short Description: The input flow for capturing new request via voice or manual text

User Stories:

- As a user, I want to instantly start a voice recording by pressing the IOS Action Button or the NavBar “+” button
- As a user, I want to see a visual loading indicator when the recording stops so I know the AI is actively processing my audio
- As a user, I want the app to transition to the Individual Prayer Screen after the AI finishes so I can manually fix any transcription errors before saving

Screen Name: Individual Prayer Screen

Short Description: The detail and configuration view for a single prayer request.

User Stories:

- As a user I want to be able to see/edit to whom I am praying for
- As a user I want to be able to see/edit the prayer request
- As a user I want to be able to see/edit a category for the prayer request
- As a user I want to be able to see/edit a recurring time for a prayer request
- As a user I want to be able to check something when a prayer request was answered

Screen Name: Prayer Mode

Short Description: A focused, distraction-free queue for active praying

User Stories:

- As a user I want to be able to pray through my active deck
- As a user, I want to do a couple things for each prayer request that is displayed
 - I want to be able to swipe right to indicate that I prayed for this
 - I want to be able to swipe left to indicate that I prayed for this and that I want to pray for it again tomorrow

Screen Name: Profile Screen

Short Description: User settings and personal engagement metrics.

User Stories:

- As a user, I want to view and edit my display name.
- As a user, I want to see specific lifetime stats:
 - "Total Requests Prayed For."
 - "Total Prayers Answered."

Screen Name: Auth Screen

Short Description: The screen where user sign in and create accounts

Components

Component Name: NavBar

Short description: The persistent bottom navigation menu.

User Stories:

- As a user, I want one-tap routing to the Home Screen, Prayer Mode, Add Prayer
- As a user I want to be able to see/edit a category for the prayer request
As a user I want to be able to click on this card to bring me to the individual prayer request screen

Component Name: Request Card

Short Description: The card for an individual request

User Stories:

- As a user I want to be able to see/edit to whom I am praying for
-

Glossary

- **Active Deck:** The dynamic pool of reviewed, ready-to-pray requests that actively circulate into a user's prayer sessions. There will be an algorithm for this
- **Inbox:** A temporary holding area for newly recorded voice notes or rapid text entries awaiting transcription verification, recipient assignment, or categorization before entering the Active Deck.
- **Prayer Mode:** A full-screen, distraction-free view that presents active deck request one at a time as swipeable cards, stripping away navigational menus and administrative settings
- **Action Button:** The IOS Hardware button on iphone 15+
